## Objective

Experienced Chartered Accountant with a solid background in auditing, consulting, and working within companies with gold standard control infrastructures. Aiming to leverage my expertise in process improvement, accounting policy consultation, and team collaboration in a reputable global commodity trading business. Proven record of owning trading flows, preparing financial reports, and participating in key finance change projects.

## Skills

- Process improvement and control documentation
- Consulting on accounting policy
- Ownership of product trading flows
- Preparation of financial reports and analyses
- Finance change project participation
- Collaborative team player
- Excellent written and verbal communication
- Knowledge of accounting principles and regulatory standards
- Initiative and problem-solving
- Strong interest in technology and automation

## Work Experience

Senior Chartered Accountant - PQR Global Trading Ltd., London, UK (March 2019 - Present)

- Led process improvement initiatives to address identified weaknesses in current processes.

- Provided consultation on accounting policy related to new corporate and trading transactions.

- Took ownership of certain product trading flows during month-end management reporting deadlines, liaising with front and middle office to resolve any issues.

- Prepared standard and ad hoc financial reports and analyses for senior executives, stakeholders, and board members to inform and aid decision-making.

- Participated in key finance change projects and identified process improvements to drive efficiency and effectiveness of the team.

- Collaborated with the team during the annual audit process for the Group, including liaising with external auditors.

Chartered Accountant - LMN Financial Services, London, UK (January 2015 - February 2019)

- Audited and documented controls within a company with sophisticated processes.

- Prepared and presented regular financial reports and analyses.

- Worked closely with teams to drive process improvement and enhance control infrastructure.

- Assisted in the annual audit process, liaising with external auditors when required.

## Education

Chartered Certified Accountant (ACCA) - Association of Chartered Certified Accountants, UK (2014)

Bachelor of Science in Accounting and Finance - London School of Economics, London, UK (2010 - 2013)
